CE Self-Instruction Test—July 2010

1 **Earn 1 Credit Hour** for successful completion of this month's test *(July 2010)*. This is a self-instructional program. CR Foundation is an ADA CERP recognized provider and an AGD approved PACE program provider.

2 **Complete the Test.**

CE Self-Instruction Test—July 2010 *Check the box next to the most correct answer*

1. Which of the following is ***not*** a ProDrive upgrade design feature:
   - ❒ A. Triangular-shaped bur shank
   - ❒ B. Sound-dampening chamber
   - ❒ C. Locking grooves on bur
   - ❒ D. Non-slip chuck

2. A major clinical advantage of the ProDrive upgrade turbine is its:
   - ❒ A. Low cost of burs
   - ❒ B. Ease of bur insertion
   - ❒ C. Ability to extend the bur
   - ❒ D. Ergonomic design

3. Which of the following statements about ProDrive upgrade turbines is ***true***?
   - ❒ A. 69% of Evaluators indicated that they would purchase ProDrive to replace what they are currently using.
   - ❒ B. One of the main limitations of the ProDrive turbine is the inability to safely extend the bur.
   - ❒ C. ProDrive upgrade turbines provide excellent torque and smooth cutting with clinically discernible improvements in speed and control.
   - ❒ D. ProDrive replacement turbines were always less noisy.

4. Controlled laboratory tests of ProDrive found all of the following to be true ***except***:
   - ❒ A. ProDrive turbines increased rotation speed while cutting under load.
   - ❒ B. ProDrive turbines were identified as having better control and precision 84% of the time in a blinded, side-by-side comparison.
   - ❒ C. Extending the bur by 3 mm slightly increased the amount of bur deflection.
   - ❒ D. ProDrive upgrade turbines were always less expensive than the original manufacturers' turbines.

5. Which of the following types of lesions is Icon Caries Infiltrant ***not*** recommended for:
   - ❒ A. Small, incipient proximal lesions
   - ❒ B. Smooth surface lesions
   - ❒ C. Poorly diagnosed lesions that are radiographically difficult to identify
   - ❒ D. Lesions that are in enamel only

6. Which of the following is ***true*** about Icon:
   - ❒ A. Resin infiltrant is radiopaque and visible on radiographs.
   - ❒ B. Digital radiography is ideal for detecting small, incipient lesions.
   - ❒ C. Isolation is not required or recommended.
   - ❒ D. Clinician should carefully document treatment sites.

7. The involvement of which muscle is most commonly associated with trismus from a local anesthetic injection?
   - ❒ A. Medial Pterygoid
   - ❒ B. Lateral Pterygoid
   - ❒ C. Masseter
   - ❒ D. Temporalis

8. Which of the following may ***not*** be considered for the management of trismus?
   - ❒ A. Use of NSAIDs
   - ❒ B. Application of moist heat
   - ❒ C. Restrict the patient from opening for any reason
   - ❒ D. Medrol Dose Pack

9. UltraCal XS Calcium Hydroxide Paste provides:
   - ❒ A. Radiopacity
   - ❒ B. Predictable intermediate treatment of teeth needing endo or pulpotomy
   - ❒ C. Antibacterial ingredient
   - ❒ D. All of the above

10. Mojo Veneer Cement:
   - ❒ A. Has dozens of shades and viscosities
   - ❒ B. Required additional component for light activation
   - ❒ C. Has simple shade options and excellent color stability over time
   - ❒ D. Lacks try-in pastes

3 **Print Participant Information.** For additional participants, photocopy or re-print this page and list requested information.

Name _____ Email _____

Address _____ Phone _____

City _____ State _____ ZIP _____

❒ Please send my tests results directly to the Academy of General Dentistry *(AGD#* _____*)*

4 **Annual Enrollment Fee for 2010.** Select one:

- ❒ $44 Clinicians Report Subscriber
- ❒ $66 non-subscriber
- ❒ Already enrolled

Payment Method: ❒ Visa ❒ MC ❒ AMEX ❒ Discover ❒ Check *(Payable to CR Foundation®)*

Cardholder's Signature _____ Exp. _____

(Signature Required)

5 **Send your test answers and enrollment fee to: Fax — 888-353-2121**
